IODE Presents Books

The Father Lacombe Chapter I.O.D.E. presented 104 new childrens books to the St. Albert Centennial Library at a brief ceremony Nov. 8.

Many of the books in the group, designated for children aged 10 years and older are beautifully illustrated and cover a variety of subjects. The Father Lacombe Chapter has always been vitally interested in the St. Albert Library. Through its annual "Bouquets for Books" flower sale, by catering to teas and receptions, through

the sale of Centennial spoons and by holding Bridge parties and a bazaar, the Chapter has been able to donate \$1300 to the Library over the past four years.

This amount does not include the unique Fountain which graces the Library. The Fountain was the Chapter's special Centennial gift. The well stocked Children's Section in the St. Albert Library is a direct result of the labours of this community minded, hard working group of ladies.

Helmut Gollner and the Alberta Barber and Benefit Association trophy which he won for the best men's hair cut and styling at the Riviera Hotel on Nov. 11. This is an annual affair and a demonstration done there by Mr. Gollner appeared on TV on Nov. 13. Mr. Gollner took three years training in hair styling in Munich, Germany, and then developed his own particular style. He is a partner in the Grandin Beauty Salon and Barber Shop.

The Perfect Hand

Allan Houle held a perfect hand in a recent game of cribbage with Ian Lamoureux.

The men were playing at the St. Albert home of Mr. Houle and had called it quits but Mr. Houle coaxed Mr. Lamoureux into one more game, and then Mr. Lamoureux dealt the fatal hand that scored 29 points against him.

Mr. Houle held three fives and the jack of spades and the five of spades was turned up.

Four years ago he held a perfect hand in a cribbage game here in St. Albert.

Babey in Rome

Rome, Italy, November 8, 1967 -- Canada's Agriculture Minister J. J. Greene expressed his country's interest in FAO and in banishing hunger from the world. He was speaking at the 14th Conference of the Food and Agriculture Organization of the United Nations.

Mr. Greene is head of the Canadian delegation to the meeting which opened Nov. 2. Later, he said he was pleased to have available the advice of Paul Babey Edmonton, vice-president of the National Farmers' Union of Canada, who is a member of the delegation.

With the discussions being centered on agricultural development on an international basis, Mr. Greene stressed the importance of having in the delegation a representative of the Canadian farmer in the person of a leader from one of the large farm organizations.

The FAO Conference winds up Nov. 23.

Guide Leaders Honored

The local association of the Canadian Girl Guides held its annual general meeting Nov. 7 in the St. Albert Roman Catholic Church. Attendance was good, as more than 100 women turned out for the meeting which saw most Brownie, Guide and Ranger leaders present.

Presentations were made to three leaders in the local guiding movement, Rose Ostergard, who is leaving soon to make her home in Calgary was recognized for her work as leader of the Second St. Albert Guides, Jean Dobie, founder of the First St. Albert Brownies, received a token of appreciation on the occasion of her retirement from Brownies. Mrs. M. Vanden Bos, former Division Commissioner, was honored on her appointment to the Provincial Commission.

Mrs. P. Sandomirsky is the new Division Commissioner; Mrs. M. Brostrom was appointed District Commissioner. Mrs. A. Brunner is the other District Commissioner.

The executive of the St. Albert Association of the Canadian Girl Guides is as follows: President, Mrs. M. Iseke; vice president, Mrs. L. Parry; secretary, Mrs. M. Culp; treasurer, Mrs. M. Neumann; social convener, Mrs. R. Russell; badge secretary, Mrs. W. O'Hara and publicity, Mrs. B. Smith.

Sturgeon Valley Golf Club

The Sturgeon Valley Golf Club are selling shares to raise funds to further improve their course and club house.

The golf club is situated three miles east of St. Albert and first came into being in 1960 with 18 holes.

In 1963, after a mediocre start, the club really got moving and installed a watering system on the front nine holes. This greatly improved the conditions of the greens.

Remembrance Day Service

Mayor R. Fowler places a wreath on behalf of the Town of St. Albert, at the cenotaph at the Remembrance Day Service on Nov. 11.

A large crowd gathered to honor their war dead on Nov. 11. A parade started from Grandin Shoppers' Park and went down Sir Winston Churchill Avenue to the cenotaph. Here a remembrance day service and a wreath laying ceremony took place.

Wreaths were laid by Mayor Richard Fowler for

the town of St. Albert, the Women's Institute, the IODE Mrs. B. C. Brooks, Mrs. L. Abrams, the Air Cadets, Mrs. Neil Ross, Jim Byrne's Men's Wear and the Lions Club.

The address was given by Rev. L. J. Musto, his topic being "get together and be friendly."

Chamber Forms Committees

The Chamber of Commerce met on Nov. 14 at the Club Macombo. Several committees were formed.

Rene Kamborough, Dr. N. Dolman and V. Ratchinsky will form a committee to study the Edmonton Chamber's submission to the Federal government on the Carter Taxation report.

D. Grimmett at CDA's research station at Charlottetown, Prince Edward Island, analyzes the food reserves carried in forage plants.

The annual Christmas home decoration contest will be promoted by the chamber again this year with substantial prizes offered. Also

the Christmas tree will be erected on Perron and Sir Winston Churchill Avenue. Committee in charge is made up of G. Voyer, Fred Akins and Dick McGee.

During the month of December St. Albert will be promoted as the "six-six" shopping area, open six days and six nights a week to 9 p.m. Serving on this committee is J. Byrne, Peter Zuidema and Bob Bate.

D. McGee, Dr. W. Cuts and J. Byrne will make up the nominating committee.

A New Year's Eve ball will be held at the Club Macombo to celebrate the end of Canada's Centennial year. Tickets are available at the club.

By-laws and Policy Handbook

A large part of the time of the St. Albert Town council meeting held on Nov. 14 was taken up considering by-laws and recommendations on the new policy handbook. These by-laws and recommendations had been made up at a council committee meeting held the previous week.

By-law No. 41/67, a by-law to provide funds for the purchase of town equipment for works and parks departments received first reading.

This by-law would provide \$24,975 for the replacement of trucks, purchase of power equipment as power broom, rotor tiller, insecticide sprayer and so on and for the purchase of additional garage equipment.

The purchase of the parks

equipment, which totals less than \$5,000, will be recovered in a short time in savings of labour hours.

By-law No. 42/67 will provide for the purchase of an additional booster pump for the water supply system. This will cost \$10,000 and will forestall the cutting of water usage in summer months and also assure reservoir retention so that ample water is always available in case of a serious fire or extremely dry weather.

A by-law No. 46/67 to provide the amount of \$37,000 for recapping existing paved streets also received first reading. This is part of a definite maintenance program.

There were no major changes made in the policy hand book, a few small changes, some deletions and a few policies reworded. Deletions were for outdated items as Centennial and so on.

One policy coming up for re-wording is one that states that the secretary-treasurer be the only one allowed to authorize overtime. Mr. Fleming expressed his view on labour management and said the men working for the town were good men and at times of emergency should be allowed to act. He said he did not expect some one to phone him in the middle of the night to get permission to fix a broken water line. This will be discussed at the next meeting before a decision is made.

Jim Robert's appointment as building inspector was confirmed and he was also appointed as development officer, license inspector and gas and plumbing inspector.

Matwechuk and their two children from Prince Albert Sask., travelled to St. Albert for the reception.

Mr. and Mrs. Soloduk received congratulatory messages from the Lieutenant Governor, Dr. J. W. Grant MacEwan, Hon. Ernest C. Manning, Premier of Alberta, and Mayor Vincent Dantzer of Edmonton.

Mayor Fowler's Memo

A number of months ago I bought a new lot in Sturgeon Heights, Stage One in anticipation of building a new home for our ever increasing family which now numbers six children. Today being Sunday without an awful lot to occupy my mind, it occurred to me that I should get the tax notice out to see when it had to be paid in order to escape the 8% penalty. Needless to say, when I opened it I found that it was already too late and and the 8% I must pay. This column is not going to be about the 8% which Council decided was necessary this year, but I realized when viewing the tax notices that after four years in Municipal Office and nine years of paying taxes in St. Albert I have never read or studied the tax notice.

The tax notices as mailed out are a prescribed form of the Provincial Government and on reading this one through, I now see why I would be quite naive if I

said that it was a mystery to me why we must carry the amount of propoganda on the back of a tax notice that we do. While we must bring the bad news of what exactly is owing to the Town by the front part of the notice we are in turn obligated to advise you how extremely fortunate we may be in obtaining the many millions of dollars that the Provincial Government hands out to us in many different directions.

You will note from the back of a tax notice that the Municipalities Assistance Act Grant is estimated at \$128,350.00 to the Town, this coupled with what they term as 'other grants' covering a Library, Welfare and Recreation totals \$162,270.00. Now if you will turn over to the front of the tax notice you will note that the Provincial Government Education Mill rate is 25.739. This, dear readers, amounts to approximately \$420,-

000.00, so no matter which way you read it the net result is that while the Provincial Government are providing us with \$162,270.00 in what they call 'grants' they are at the same time taking out of the Town in excess of \$420,000.00 for education purposes alone. If the Government were to find another method of completely financing education other than property tax and also at the same time forget their extreme generosity to the Municipalities by the Assistance Act Grant our tax notice would have been reduced by 20 mills.

Referring once again to the mill rates table on the front of the tax notice a little quick arithmetic will indicate that your Town Council is responsible for only 42.4% of the tax dollar which we are collecting. I do not want to suggest for one minute that those of you that wish to complain about high taxes in St. Albert should not do so, but I would like to suggest that possibly you should consider making your complaints in proportion to the responsibility of the different elected bodies. For every tax dollar that the Town of St. Albert collects the distribution is as follows Municipality of St. Albert -

Golf Club

Continued from Page 1

Disaster struck the club in 1965 when the whole river valley flooded ruining the best part of six of the back nine holes.

In the latter part of 1966 construction started on a completely new design for these nine holes. They are away from the dangers of flooding and are fully trapped. This was completed and opened to the public in September of 1967.

This, plus yearly improvements to the front nine holes has made a course which St. Albert can be proud.

The aims of the club are to provide golf at reasonable fees so that they are within the means of the average working class.

The club saw its best year to date in 1967 with attendance and proceeds greatly increased.

United Church News

The laymen of St. Albert United Church, particularly those laymen who attended the recent Banff conference for men, took over the church for the day, on Nov. 12 with a truly unusual type of service.

Gerry Tookey was in charge of the service, explaining its purpose and introducing the other participants, who were Messrs. Stu Rindero, Doug Taylor, Dr. Cuts, Art Cunningham, Mac Lyle, Art Ralphs and high school student Brian O'Toole.

The fellow who had visited at one bar too many was stopped by a policeman because he was driving the wrong way on a one-way street.

"Where do you think you're going?" asked the officer.

"I don't know," replied the drunk, "but I must be late, because everybody's coming back."

The men spoke briefly on different aspects of the conference, including Bishop James A. Pike's theme addresses, the wonderful fellowship experienced, why this conference was so impressive, what it revealed to the individual and its impact on a young person.

Music was provided by a quartet consisting of George Willis, Bass, Len Musto, Baritone, Stu Rindero, Tenor and Ken Febr, lead.

The original impact of the service was intensified by the fact that all the participants, and most of the men of the congregation, wore casual clothes, which was stressed at the Banff conference itself.

The entire purpose of the conference and the service was to emphasize "God and His Purpose", taking away the trappings with which we tend to surround our worship and getting down to the essential message of Christ to the individual person.

42.4%; Education (Provincial Government and local requisitions = 48.7%; Hospital and Health (to Provincial Government and Sturgeon General Hospital Board) = 8.9%. I do not want to lose my readers in a maze of figures which will end up meaning nothing, however, I do want to impress upon you the fact that of all the tax dollars the Town of St. Albert collects only 42.4% is spent by the Town.

The School Act has a section in it which permits a Municipal Council to appeal a school requisition to the Local Authorities Board. While the Council of St. Albert has instigated this action on a couple of occasions, I am totally opposed to the existence of this section in the School Act. I do not believe that the Council of a Municipality is in any position to pick apart or sit in judgement over a budget prepared by another elected body. While I am totally in favor of removal of this section from the School Act, I would have to qualify it with the statement that I am convinced that Municipalities should be permitted to send out separate tax notices for Education. I can think of no other way to impress upon the electorate or ratepayer the amount of money that education is costing in this Province. It may also spark a much greater interest in education by the people who are paying the bill. In a recent conversation with a School Board Chairman, I made the suggestion, and he was in no way convinced that there was any need for sep-

arate tax notices. I then asked him "How many complaints have you received regarding the high taxes" and his reply was "None". I found this rather significant in view of the fact that education costs to our ratepayers in St. Albert are approximately 10% more than municipal costs.

The Town of St. Albert has made representation over the past two years to gain permission to send out separate tax notices, however, to no avail, and once again I believe it is understandable when one gives it a considerable amount of thought. So long as the Town of St. Albert itself must send out the total tax notice and receive the total tax payment at Town Hall it will always be considered by the majority of people that your Council is most at fault for the high taxes payable. Once we are permitted to send out separate tax notices, if ever, the ratepayers will begin to realize exactly where their tax dollars are being spent and this may conceivably cause considerable backlash to all elected bodies other than the municipal Council.

At the present time we do not yet have the distinction in St. Albert of being the highest tax municipality in Alberta but for those of you who may be wondering why we are so much in excess of our Giant neighbor to the South, please keep in mind that if Edmonton did not have a Utility Profit of approximately 17 mills their mill rate this year would have been 70 mills as compared to our 73 mills.

"Acid, acid head, African Woodbine, Amyl, bang, back, Benny, Bhang, black bomber, block, blocked, blow, blue velvet, bluey, boy, bug-ged."

So begins the drug-taker's dictionary. Its last word is "Yen", which may be the only one familiar to adult readers and which originally referred to the opium smoker's desire for drugs during withdrawal distress.

Could our sons and daughters come into contact with drug addicts, learn the language, become addicted? Thousands do experiment but fortunately only a small proportion become dependent.

Drug dependence is really a relationship between a personality and a drug. The person depends on the drug to conform to the standards of his community, to provide satisfying sensations or to suppress emotional conflicts. As the dosage builds up (tolerance) an intense craving, coupled with severe withdrawal symptoms constitute the picture of the true addict.

Most healthy young people are inquisitive and like to experiment. They may accept drugs out of curiosity or desire to conform to the group pattern. But the majority recognise the lack of

judgement and self-control resulting from this first trial and make a conscious decision to refuse drugs or at least to avoid the sort of company which encourages their use. If it happens it's probably just a passing phase, another part of growing up. Normal people don't need drugs except on doctor's advice.

Charolais Association

The Canadian Charolais Association is pleased to announce the appointment of Ben Schrader to the position of assistant to the secretary-treasurer, Rodney James of Ponoka.

Mr. Schrader was born at Barrhead, 75 miles north of Edmonton, and took his elementary schooling there; he completed junior and senior high school in St. Albert, just north of Edmonton. He attended the University of Alberta, and received his bachelor of science in agriculture in the spring of 1967. Mr. Schrader majored in animal science, and in his graduating year he completed a thesis on the "Evaluation of the R. O.P. beef program in Alberta", under the guidance of Dr. R. T. Berg, professor of animal genetics.

Mr. Schrader has a farm background, and recently has been specifically involved in artificial insemination of the family beef herd. While at university, Mr. Schrader's summer employment was in the field of agriculture; recently he held a position with the livestock division of the Canada department of agriculture.

In the spring of 1964, Mr. Schrader purchased a high gaining 3/4 blood Charolais bull from an Alberta test station. He has had a keen interest in the Charolais breed over the past few years. Mr. Schrader's responsibilities with the Canadian Charolais Association will involve research work, public relations and business administration.

es-Kozdrowsk Wedding

Marilynn Hayes became the bride of Laurance Kozdrowski at the St. Albert Roman Catholic Church on Oct. 28. Father Hesse of Wetaskiwin, a long time friend and former neighbour of the bride's family, officiated at the ceremony which united into marriage the daughter of Mr. and Mrs. Clarence Hayes, of the St. Albert Road and the son of Mr. and Mrs. Joseph Kozdrowski of Chipman.

The bride, chose a full-length gown and was attended by her sister Michelle Hayes, Miss Joan Vallie, both of St. Albert; Miss Gladys Kozdrowski of Chipman, sister of the groom and Miss Linda Hawkins of Seba Beach, cousin of the bride. All four wore identical blue empire style gowns.

Attending the groom were Stephen Fedlow, Joey Paltzat, Brian Robbins and Leo Van Os, of St. Albert. Soloist was Mrs. R. Como, accompanied by her daughter Annie, both of Riviere Qui Barre.

Following the wedding ceremony a luncheon was held in the lower parish hall, served by 10 girls from the first St. Albert Guides. A reception was later held at the Ukrainian Centre in Edmonton. Following a honeymoon trip to the United States, the couple will make their home at 41 Sheridan. Mrs. Kozdrowski is a nursing aide at the Youville Home her husband works in Edmonton.

Prior to her marriage the bride was honoured at several showers. Among the hostesses were Mrs. J. Val-He of 13 Gaylord, Mrs. M. Vanneste of 48 Belmont, Mrs. J. Sharp of R.R. 8, Edmonton and Mrs. F. Godden of the St. Albert Road. Adhering to Ukrainian custom, the newly-weds entertained their close friends at a reception in their new home the day following their wedding, before leaving for their honeymoon.

Of special interest to guests was the wedding cake which was baked and decorated by the students at NAFT. It was made up of six cakes and featured the entire wedding party and a replica of the church and it took two men to carry it.

On Nov. 12 the Purple Dude Wranglers lost their basketball game to Bonnie Doon Grads in a closely fought game that saw the score at half time 24 to 25 in favour of Bonnie Doon and the final score 56 to 48 in their favour.

St. Albert's Randy Routley was top scorer in the game with 24 points. Second high scorer on the

Last Chance to Sign

Canada's Birthday Card, centennial project of Bill and Mona Sutherland and family will be completed this month when it is turned over to the museum in Edmonton. On Thursday evening, Nov. 16 and all day Saturday the card will be at the Simpson Sears store in Park Plaza. Then on Sunday the 19th it will be at the Youville Home from two till five, which will be the last chance for St. Albert people who would like to sign it. The first official showing of the card also took place at the Home, on New Year's Day. For this showing all of the pages will be inserted with over 5,000 signatures including those of many distinguished Canadians, visiting celebrities and people from many parts of the world.

Next week the Sutherlands will take the card to Calgary where the funds will be returned over to the Canada Save the Children Association at their annual meeting and banquet. More than \$2500 has been raised for destitute children by this outstanding centennial project of one family working with enthusiasm, imagination and energy for eleven months of Canada's centennial year.

at the Citadel

The Citadel Theatre in Edmonton opened its third season with a bang.

Directed by Robert Glenn, with production design by Phillip Silver, the play runs until Dec. 2.

St. Albert team was Danny Barclay with 10 points.

The next game will be on Nov. 23 when the St. Albert boys meet AGT at the East-glen school at 8:30 p.m.

Things look good for the Wranglers says Manager Rockwell. "We have appointed a new coach, Ken Check, and there are even possibilities of a recognized tournament to be held in St. Albert."

Candidates

MR. ARTHUR STAPLETON

A candidate for Mayor for our town of Morinville should have, I am sure, the interest of the town at heart, with no possible conflict of interest to influence him. He should have a background of municipal experience to assist him in the duties of office he aspires for.

Over the past seven years, I have served as councillor, and I have carried the office of deputy mayor for the past two years, also for the preceding two years. I have represented the Town of Morinville as your representative on the Edmonton Regional Planning Commission.

With this background in municipal work, I feel confident that if elected to the position of mayor that I will be able to serve the Town of Morinville with a progressive, but economical program, that will keep Morinville as it should be, the trading centre of this agricultural municipality.

A. Stapleton.

L. Rye, Winner

Lawrence Rye of Namao is a winner in the most popular events in the Toronto Royal Agricultural Winter Fair, the horse division. He took a fourth and sixth place for his entries in light draught four years and over class.

ROGER BLACKBURN

My experience in business management and civic affairs combined with optimism about the town's future leave me well qualified to guide me in proposing measures in the best interests of the citizens of Morinville.

I would direct my efforts towards sound commercial and residential development of the community, by the provision and realistic planning of areas for future development, by improving existing services and facilities and by encouraging and assisting in improving the general appearance of the town.

I would welcome the opportunity to elaborate further on these subjects and would urge all the citizens of Morinville to attend the forum which will be sponsored by the Board of Trade on Nov. 22.

R. Blackburn.

Sturgeon Area Well Represented at ASTA Convention

The town of St. Albert, the Sturgeon and Thibault School divisions and the Legal School District were represented at the 61st annual convention of the Alberta school trustees convention held in the Chateau Lacombe from Nov. 5 to 8. Among those attending were:

St. Albert School District No. 3: V. J. Maloney, superintendent, Dave B. Fraser, Dr. Walter Mirlin, Mrs. Sara C. Ross and Don LaBelle.

St. Albert Protestant Separate S. District No. 6: Dr. J. W. Chalmers, superintendent, R. H. Harvey, Dr. W. D. Cuts, W. A. Penrose, C. Schroder, J. W. Wiltshire and Eric Murray secretary-treasurer.

Sturgeon School Division No. 24: A. E. Kunst, superintendent, John McDonnell, George Wilson, Reg Austin, Mrs. Lois Hole and secretary Charles Krauskopf.

Thibault C.P.S. District No. 35: Mrs. Anne Kryskow, Leon Riopel, Arthur Krauskopf and Mat Tellier and Paul E. Brochu, secretary.

Legal School District No. 1738: Roger Prefontaine, Legal.

Registrations and attendance:

Trustees, Counties & Divisions,	
Registered Delegates	260
Trustees, Cities and Districts	120
Superintendents 70 Secretaries 81	151
Department, University & Other Officials	78
Total Registered Attendance	609

The meeting got underway on Nov. 5 with registration and a film in the evening. An official welcoming ceremony took place at 7:30. Dr. W. E. Smith, president of the ASTA welcoming all and deputy mayor of Edmonton, Ivor Dent, bringing greetings from the city. The convention was now underway and there was little time to relax from then until the afternoon of Nov. 8.

A trustee for the County of Mountainview, Neil Leatherdale, was elected president of the Alberta School Trustees Association by acclamation.

Calgary seemed to be supplying some of the highlights of the convention by desperately trying to pass some resolutions that from an observer's point of view could only benefit a large city. One resolution to have the foundation program for school construction increased was bitterly opposed by Edmonton who keep their building program within the allowed amounts. The resolution passed as did another Calgary resolution that municipal councils not be allowed to refer school board budgets to the local authorities board for review.

Rural school trustees fought a resolution asking the government to make kindergarten part of the regular school program. A great deal of discussion took place on this one. One rural trustee explained that some children are on buses from 7:30 a.m. to 5:30 p.m. and that was too much to expect from any child.

He explained how children are not with their parents very much these days as it is and this would take them away one extra year. Nerves and tensions of the home and the school are having their affects on the child, he said, and it is being reported that elementary school pupils are taking tranquilizers to help them cope with the problems of the day. This trustee certainly was not in the mood to add to those problems by starting them

one year earlier.

The resolution was lost. Later in the lobby of the hotel a trustee was heard to say, "Can you imagine that they want to make rural students second class citizens at the age of five"

There are lots of prizes so you could be a winner.

In the one hundred years that followed Canadian Confederation Canada has grown to become a great land. But what made Canada the great nation she is today? Was it her natural resources, her industries or her army.

I believe it was none of these but rather the people of Canada who by their own toil and ingenuity built Canada as we know it today. These people immigrated from all parts of the globe to mix in one great melting pot to become Canadians.

They gave up all the comforts they had known in their homelands to come to a young land, to make a new home and to begin a different life.

Every person and nationality contributed to the character of Canada.

One group in Europe the Irish moved to Canada because of persecution of their religion and famine. In the eighteenth century the potato

Canadian Character

crop failed, over one million people died of starvation. Thousands immigrated to Canada. Irishmen brought their interest in democracy, bitter hatred of tyranny and the Irish potato. They helped form the strong government of our land.

Religious freedom and political beliefs were the motivation that prompted the Germans to migrate. They contributed their music, manufacturing skills and their favorite beverage - "beer".

The Scandinavians became farmers and lumbermen.

Wine and music were associated with the Italians. From Russia and any other European country came the Jews to find freedom. They set up businesses and factories throughout out country.

Russians brought with them their domed orthodox churches, love of music and dancing.

The orient was brought to Canada by the Chinese and Japanese. Over population in these countries forced these men to move to Canada where they set up businesses.

The men who opened the western provinces were the Dutch who brought their customs and traditions. When Canada was still a colony of France the French settlers arrived. Quebec has the largest French speaking group outside of France. Canadian culture is greatly enriched by the added french spice.

The French lived mostly by farming and lumbering.

The search for new work and land brought the adventurous English settlers. They built the foundation for our democratic government.

Thousands of other men from many different countries helped settle the west and build the great factories of Eastern Canada.

Canada is the land of opportunity, where every man has equal rights regardless of his race, color and religion. It is really a huge melting pot where men from many countries join lives to make a strong land. To quote the late Governor-General Hon. Georges Vanier:

"I am not Irish nor am I French I am Canadian". The greatest honor we can give this man is to drop

our hypenated nationalities. At one time the French thought that their children should only marry Frenchmen and other nationalities thought their children should only marry within their own groups. This caused a split between the different nationalities. Luckily this view has changed with our growing country.

At one time people wondered if Canada was really united. The two world wars answered that question. Our soldiers were not German, French or Polish immigrants, but Canadians. By the end of World War Two it was evident that Canada was truly united from sea to sea.

Every person in our nation contributes to the Canadian image. No longer are the people of Canada, English, Polish or Swedish, they are all Canadians.

In our Centennial Year it is more important than ever to realize that every nationality contributed hand in hand to make Canada a good place to live. Let us use the saying "Canadians One and All."

four ministers remain in Ottawa.

St. Albert had a full slate of 12 voting delegates at the annual convention. Constituency President Gerry Torpy reported that all five resolutions submitted by the St. Albert constituency received approval on the floor of the convention late Nov. 11.

Liberal candidate Robert Russell led the debate that finally saw the convention adopt a resolution calling on the Alberta Liberals to hire more paid organizers. Party membership has dropped from 12,000 to 2500 in the last three years. Ray Gibbon of St. Albert saw his motion regarding the calling of Liberal party council meetings go through without a dissenting vote. Last year in Lethbridge the motion didn't receive the required number of votes to allow it to come to the floor. Constituency President Gerry Torpy praised Mr. Gibbon for "sticking" to his guns. "Mr. Gibbons motion which requires that the Liberal Party call an executive council meeting whenever ten members

Ladies of St. Anne

The Ladies of St. Anne held their monthly meeting on Nov. 6 at the Recreation Centre. The president opened the meeting with a prayer to the Ste Anne followed by the reading of the gospel by the chaplain, Father Ricard. After the group discussions Miss Nicole Cyr gave a resume on her trip to Expo and Quebec where she attended a singing and conducting workshop.

Miss Rogelle Auger presented the ladies with the highlights of her five week tour from Edmonton to Quebec by school bus with the "Voyage Interprovincial Albertain" group. The girls were requested to give a report on their trip because they received assistance from the organization for their voyage.

Lunch was served.

ASTA CONVENTION

Continued from page 1

He went on to explain that it would be impossible for rural children to use these kindergartens because of the time and distance involved in getting them there and so they would not be able to be part of the school program if this resolution did pass and then was acted upon by the government.

As tempers flew in this discussion one delegate said she was tired of listening to opinions of the trustees and asked to hear from a real professional, a teacher. She was reminded that this was a trustee convention.

A resolution was passed urging the province to reduce the number of years

required for apprentices to reach journeymen status. The resolution also suggested a greater number of apprentices be allowed to train under a journeyman.

The executive of the ASTA recommended that Indians on reserves be allowed to vote in school and municipal elections and that school districts be established on reserves.

There are 8,000 Indian children attending school -- half of them, schools off the reserve. At a few of the schools on reserves, there are school committees and advisory bodies.

Indians are not allowed to vote in municipal or school elections and even though some schools on reserves are maintained and operated

exclusively by provincial school authorities, Indian parents are not allowed to vote for a board of trustees.

The province's county act does allow Indians on reserves within a county to vote but Indians are not eligible to seek election.

A report on Indians in Alberta was given urging the province to clean up its back yard before embarking on criticism of the federal government.

The report states, "The Alberta Government, so vocal in its criticism of Indian affairs, has little to boast about in its treatment of those other natives who are its peculiar responsibility, the Metis". The report adds that while school services provided to Metis chil-

dren are comparable to those enjoyed by other rural children, the Metis child is still usually economically, socially and culturally deprived, and often emotionally disturbed as well.

Have you ever wondered...

... how an English-speaking Alberta producer communicates with a French-speaking Quebec customer?

It's easy. He merely asks the bilingual staff of the Government of Alberta office in Montreal to interpret for him. In addition to breaching the language barrier, the Montreal representative of the Industrial Development Branch, Alberta Department of Industry and Development, assists in seeking out markets for Alberta products all over eastern Canada, from Ontario to the Maritimes. They also help visitors from home enjoy their stay in "la belle province" and provide premises where industrial commissioners and representatives from Alberta cities and towns can conduct business. These same services are available in the southern California area from the Government of Alberta office in Los Angeles.

... what is meant by the phrase "living history"?

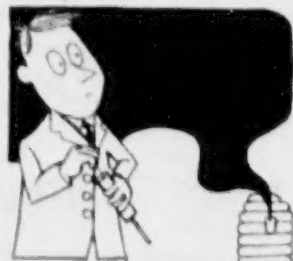

Living history is the story of the past as told by the men who lived it. Alberta's history is brought to life by the writings of the men who actually explored and developed our province. Their first-hand accounts tell of the establishment of law and

order in the wilderness, of the beginnings of agriculture, industry and government.

You can read the stories these men have to tell, in the Alberta Provincial Library in the Legislative Building. This collection of Western Canadiana describing Alberta's formative years is supplemented by documents which trace the province's history since inauguration. The lives of the pioneers are recorded in the file of Alberta newspapers which have existed since 1906 and which is virtually complete. The story of government in Canada and in Alberta is traced through the complete file of federal and provincial documents, including all issues of the Alberta Gazette, and the debates and journals of the Canadian House of Commons and the Senate. The Alberta Provincial Library is a comprehensive reference and research centre and all books, documents and other materials are available for public use on the premises.

... how to give an antibiotic to a bee?

Mix it with icing sugar and dust it into the colony. The bees' habit of passing food from one to the other will ensure that each bee gets his share of the treatment. That's the advice given to Alberta agriculturists by the Agriculture Branch of the Plant Industry Division, Alberta Department of Agriculture. The recommendation of methods of disease control is just one of the personal services the

Branch provides to the province's bee keepers. It also assists in solving management problems, keeps agriculturists aware of new developments and trends in techniques through regular news letters and personal visits. Agricultural personnel make regular inspections of all bee colonies in Alberta and offer expert advice on specific problems.

... how the efficiency of a community's water supply is assured before the pipes are laid?

Discovering that a water supply system isn't adequate for a community's needs, AFTER the system is installed, is an expensive mistake. To assist municipalities in avoiding this error, design plans for all new and extended water systems must be submitted, for review and assessment, to the Environmental Health Division of the Alberta Department of Health.

This method assures that the finished system will deliver a continuous supply of wholesome water at an adequate rate ... and does it while the plans are still in the design stage. Water supply is just one of the areas in which this division contributes to the health of Albertans. It also formulates regulations and carries out a

preventive maintenance program in the fields of air and water pollution, swimming pools, sewage systems, food processing plants, plumbing inspection and industrial radiation hazards. In addition, the Environmental Health Division provides an inspection service to those areas of the province not served by local health agencies, and a consultative service to Health Units and City Boards of Health.

... if there is a challenge left for modern youth to face?

In Alberta there is, and it lies in one of the most rewarding of all areas of service, in working with people who want to improve their own lot in life. This is the challenge offered to members of the Alberta Service Corps, a Division of the Alberta Department of Youth, formed of University and College students who want to share in the development of the human resources of our province. Volunteers are trained and assigned to areas in which they are needed, and where their particular abilities can best be used. This may be with the mentally ill, on Indian reservations, in blighted urban areas, with migrant or seasonal laborers, or with a medical corps, providing a health program in remote communities. The pay is not great. Each member of the Alberta Service Corps receives a living allowance during his term of service, as well as a bursary on returning to school. The greatest reward lies in the satisfaction of knowing they have served their fellow men.

... what is the source of trained technical staff for Alberta's smaller hospitals?

Whatever its size or location, a hospital requires X-ray and laboratory services to operate efficiently and these services must be performed by trained technical workers. The need for these people is great and, to meet it, the Alberta Department of Health operates the Laboratory and X-ray School in Edmonton. Here, a seven-month course equips graduates to carry out a number of procedures in both laboratory and X-ray fields and to perform the technical work necessary in a rural hospital.

There is no charge for instruction and students receive a monthly allowance of \$75, but entrance qualifications are high and each graduate is required to spend at least one year in the Alberta rural hospital field working as a hospital technician. This assures a constant supply of trained technical workers to render a reliable and efficient service to rural hospitals in the laboratory and X-ray fields.

GREY-CUP RECIPES

It's Grey Cup time, and all across Canada women are planning after-the-game parties.

Everybody's favorite tomato soup is usually a welcome warmer after standing in the cold; chili con carne is popular, too. And

our basic batter recipe can be used to coat a dozen foods that make delightful fried snacks.

TOMATO BISQUE

4 cups milk
1/2 small onion
6 cloves, piece of bay leaf,
spray of parsley
3/4 cup dry bread crumbs
2 cups tomatoes
2 teaspoons sugar
1 & 1/2 tsp. salt
1/8 tsp. pepper
3 tbsp. margarine

Scald the milk with onion
spices, parsley and bread
crumbs; press through a

sieve, or mix in a blender.
Cook the tomatoes with
sugar for 15 minutes; press
through a sieve. Add the
seasonings and butter.

Combine the two mixtures
by adding the tomato slowly
to the milk. Serve at once
with croutons, or crisp
crackers. Serves 6.

CHILI CON CARNE

1 tsp. salad oil
1 clove garlic, thinly sliced
2 cups chopped celery
1 cup chopped onion
1/2 c. chopped green pepper

1 lb. ground beef
1 lb. can kidney beans
2 lb cans Italian tomatoes

1/2 tsp salt,
chili powder to taste

Prepare the day before the
party: In a four-quart sauce-
pan, in salad oil, saute the
garlic, onion, celery and
green pepper until the onion
is golden. Add the beef, cook
until brown. Stir in kidney
beans, tomatoes, salt, and
1 and 1/2 tsp. chili powder.
Simmer uncovered at least
45 minutes - longer simmer-
ing improves the taste. Cool
and refrigerate until 20 min.
before serving time. Reheat
at a medium temperature -
(350).

A few minutes before serv-
ing, stir in enough chili to
make the desired hotness.
Serve with toast and a green
salad.

BASIC BATTER RECIPE

1 cup flour
1 & 1/2 tsp. baking powder
1/4 tsp. salt
1 tbsp. fruit sugar
1/3 cup milk
1 egg
1/2 tbsp. melted margarine

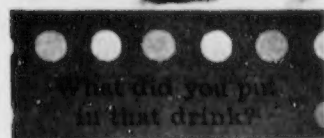

Mix and sift the dry in-
gredients. Add milk, beaten
egg, and melted margarine.
This recipe can be used in
a number of ways. Here are
some suggestions:

BURGER BALLS - Prepare
ground meat as usual. Form
into small meat balls. Dip in
batter, roll in crumbs, re-
dip, re-roll in crumbs. Deep
fry in vegetable salad oil at
350 to 375 until golden brown.
Serve hot on tooth picks.
DOGGIES IN A COAT - Dip

1 to 2 pounds of hotdogs in
batter. Deep fry in vegetable
salad oil at 375 for 3 to 4
minutes. Serve with mustard
and relish.

**BREADED SHRIMPS OR
SCALLOPS** - Using large
fresh frozen shrimps, dip in
batter and roll in crumbs.
Deep fry in vegetable salad
oil at 375 for 4 or 5 minutes.
Serve hot with seafood sauce.
CANAPE CAPS - Remove
stems and wash about 1 lb.
medium sized mushrooms.
Dip in batter, roll in crumbs
repeat. Deep fry in vegetable
salad oil at 375 for 5 to 6
minutes. Serve hot.

And finish up the meal with
creamy hot chocolate
topped with a commercial
dessert topping for decora-
tion.

Baby cards with "phony"
captions are big sellers am-
ong humorous cards; humor
category consistently account-
s for about 12 per cent of
Canadian card sales.

98, FINE LADY

A typical example of the
"pixie" style that has won
a solid following among card
buyers.

Food Outlook

Influence of the seasonal
abundance of many food
items is apparent in the Nov-
ember food forecast pre-
pared by the Economics
Branch of the Canada Dep-
artment of Agriculture.

Egg prices will be seas-
onally lower because prod-
uction is increasing.
Mudtums will remain the
best value.

Broiler chicken prices
will be steady.

Turkey prices could
strengthen slightly as sup-
plies are lower.

Beef, with supplies rel-
atively smaller and a con-
tinued firm domestic dem-
and, prices in the immediate
future are expected to re-
main strong.

Pork, with the usual heavy
supplies at this season, pri-
ces may show some weak-
ness in the next month.

Potatoes, prices are still
low but firming up.

Apples, prices are lower
than last year in Ontario
and much lower in Quebec.
In the West, prices are high-
er than last year.

is very strong and most
prices are above those of
last year.

Fresh vegetables, cabb-
age is readily available at
lower prices than a year
ago, carrots and celery are
dearer, onions and rutab-
agas about the same.
